

## Job Description

### Production Technician

Document Number: 0000-1903. Rev 1.5

#### Reporting Line

The Production Technician will report directly to the Operations Manager.

#### Location

Impact Subsea, Aberdeen Energy Park, Claymore Drive, Aberdeen. There may be a requirement to visit suppliers, customers, conferences, exhibitions and other work locations as required.

#### Role

To primarily work on product production and customer support.

#### Key Responsibilities

The Production Technician will be required to:-

- Ensure equipment is manufactured to meet delivery schedules:
  - Building of equipment
  - Testing of equipment
- Support the development team in product development decisions and product testing.
- Comply with management system procedures, including health, safety and environmental requirements within the company.
- Convey a professional image of the company at all times.
- Carry out any other tasks within the competence of the role and jobholder.

#### Key Outcomes

- To ensure products are built to meet delivery schedule.
- To assist in the day to day business operations.

## Limits of Authority

Full responsibility for all operational activities within the philosophies and constraints laid out in the job description.

The company reserves the right to change the activities listed, taking into account the job holder's qualifications and experience to enable the business needs to be met.

## Qualifications & Experience

Essential:

- Degree, HND or equivalent experience in an electronic or electrical engineering discipline.

Preferable:

- Relevant experience in assembly and testing of subsea electronic equipment.

## Personal Attributes & Knowledge

Essential:

- A proactive approach to dealing with challenges.
- Experience in working directly with customers.
- Experience in working on production of equipment.

Desirable:

- Flexibility to travel to meet the requirements of the role.
