Reporting Line

The Technical Sales Engineer will report directly to the Technical Sales & Training Manager.

Location

Primarily at Impact Subsea Ltd headquarters, Aberdeen Energy Park.

There will be a requirement to visit suppliers, customers, conferences, exhibitions and other work locations.

Role

To apply your technical knowledge along with sales skills to generate and develop new sales leads, provide technical assistance to customers as required.

Key Responsibilities

The Technical Sales Engineer will be required to:-

- Prepare proposals & quotations.
- Provide pre- and post-sale customer support.
- Organise sales visits to new and existing customers.
- Create sales literature (brochures, website content, social media content etc).
- Attend trade exhibitions, conferences and meetings within the UK and globally.
- Assist with the management and growth of the distributor network.
- Work with the Sales team to ensure targets are met.
- Comply with management system procedures including health, safety and environmental requirements within the company.
- Convey a professional image of the company at all times.
- Carry out other tasks within the competence of the role and jobholder.

Key Outcomes

- To increase sales in line with the company Sales Plan.
- To assist with day-to-day management of customers and enquiries.
- To assist with the growth of the company's distributor network.
- To assist with customer technical questions.

Limits of Authority

Full responsibility for all operational activities within the philosophies and constraints laid out in the job description.

The company reserves the right to change activities listed, taking into account the job holder's qualifications and experience to enable the business needs to be met.
